**Volkside™**

---

Wirify bookmarklet lets you turn any web page into a wireframe in one click

## Wirify by Volkside

Wirify is **free, easy and fun** to use

- Step back and **see the big picture** of a web page
- Focus on **page structure** by hiding the content
- **Analyse page layout** to aid learning and teaching
- Wireframes look cool

Wirify is free and **available above** for you to use right now!  
*Translations: 汉语, Русский перевод, 日本語訳 and other languages*

— Drag the link on the left to your browser Bookmarks toolbar, then go to a website and click "Wirify by Volkside" to wirify the page!

I agree to the [terms of service](#) by accessing, installing or using Wirify

From on May 31, 2012 14:43:28 What steps will reproduce the problem? Create a multi-page document 2.. What is occurring is that: • Getting Error Installing template message • Attempting to export PDF file causes a window to pop up that says 'exporting to html'.. • Each page in the pdf file is blank What version of the product are you using? On what operating system? Standalone Pencil 1.. The progress dialog will not close when the completed dialog is shown so you have to close it even though it looks like it is still running • Import the newly created template by Tools-> Install New Collection and select your newly created zip file That worked for me. cea114251b [Watch Supersonic Online Full-Length 2016 Movie](#)
